The Spencer Sport Acropolis Rally on Sunday 9 July is a stand-alone rally within the Nicky Grist Stages.

It will be a fantastic Tarmac test for competitors as the event offers 12 fantastic stages totalling just over 72 stage miles over the Epynt military range - and as it's open to a huge variety of cars.

It's going to be a real rally treat for both crews and spectators alike and competitor information and entry forms are now available at www.nickygriststages.co.uk.

The Quinton Motor Club organised all-asphalt event is open to competitors with MSA National B Stage Rally licences and above. Not only will crews in the prestigious Prestone MSA British Rally Championship be competing, the Spencer Sport Acropolis Rally will also be a round of the MAXXIS MSA English Championship.

The event is likely to attract Tarmac experts, Epynt specialists, those eager for a new challenge and others wanting to practice for forthcoming events, like the MSA British Historic Rally Championship crews who plan to contest the Stephens & George Printing Harry Flatters Rally over the same roads three weeks later on 30 July.

Competitors will also benefit from a recce of Epynt's asphalt stages and subjective route notes will be available from Patterson Pacenotes.

Llandysul-based rally team Spencer Sport will sponsor the special one-day Sunday rally, and the Acropolis Rally name harks back to one of Quinton MC's earliest and most popular events.

Regulations and entry forms are available in the Competitors' section
