Used car valuations experts HPI analysed hundreds of thousands of used car adverts to create a tool that reveals how long it takes to sell a particular model in a local area.

The data covers no fewer than 100 towns and cities around the UK and 551 car makes and models. From Truro to Aberdeen and Belfast to Norwich, if you want to know what the five most popular used cars are, the free tool can be used to find out.

It covers sales in Swansea, Cardiff and Newport for the Welsh statistics.

As well being able to identify the five best-selling cars in each area, users can also find out how much the average selling price is on the second-hand market.

Many factors will have a bearing on the fee you receive, such as the age of the car being sold, how many miles it has covered and the overall condition.

Across the UK, the 10 models that are advertised for the shortest period before being snapped up by a new owner are:

Brand Model	Index	Advert Duration Days	Price
Ford Focus C-MAX	1	15	£9,473
Volvo XC40	2	21	£42,064
Skoda Karoq	3	30	£24,150

Jeep Patriot	4	31	£5,377
Mazda CX-7	5	31	£6,518
Ford Grand Tourneo Connect	6	32	£14,776
Chrysler Ypsilon	7	33	£4,551
Citroen C4	8	35	£8,502
Dacia Sandero Stepway	9	36	£7,552
Honda CR-Z	10	36	£7,581
