Colwyn Bay is gearing up for its evening in the World Championship motorsport spotlight on Saturday 5 October.

As confirmed earlier in the summer, this year's eagerly-anticipated Wales Rally GB is coming to the popular resort in Conwy County Borough with the world's top drivers and the sport's fastest ever cars racing against-the-clock on the town's recently regenerated waterfront Promenade.

Now, further fuelling expectations and excitement, a full programme of high octane family entertainment has been added to the bill aimed at wowing those of all ages.

BREAKING NEWS:
Five-times British Rally Champion Jimmy McRae will be contesting the two-day WRGB National Rally (October 4-5) in an historic Porsche 911.

Whetting appetites for the spectacular wheel-spinning World Rally Championship (WRC) action to follow in the early evening, those in Colwyn will be revved up by an afternoon packed with dazzling air displays by the jaw-dropping Red Bull Matadors Aerobatic Team, exotic supercars, evocative historic rally cars plus a host of other attractions including face painters, roving characters and free funfair rides for children.

"We're creating a real fun-fuelled festival atmosphere both in town and on the seafront," enthused Alun Pritchard, Wales Rally GB's Events Partnership Manager who resides locally in Old Colwyn. "This is going to be a fantastic red letter day for all of us living in the immediate area and we want everyone to really enjoy what's going to be a fabulous family

day out. It's not often, after all, that a premier league world championship sport comes to town!"
