The Ford Fiesta has topped the list of cars financed in the UK, according to data from Close Brothers Motor Finance.

The firm family favourite is followed by the Ford Focus and the Volkswagen Golf.

More than 2.2 million new cars have been sold in the UK so far this year, and there have been more than 6 million used car transactions.

Consumers have never had so much choice, and the wide range of finance packages on offer makes cars more accessible than ever.

Sean Kemple, Director of Sales at Close Brothers Motor Finance, which lent on 55,000 cars, said, "It's been a year of change in the motor industry, with economic uncertainty exacerbated by Brexit and industry shocks like WLTP hitting dealer bottom lines.

"However, consumer demand remains

strong, and dealers are perfectly placed to meet that demand with expertise and good value stock."
