Suzuki GB latest sales event will take place next weekend.

Visitors to any of Suzuki's network of 157 dealers will be able to take advantage of £1,000 off the recommended retail price of Ignis, Swift (except Sport), Baleno, Vitara and S-Cross by ordering this weekend and registering their new car by the 30 June.

Almost three quarters (70%) of women living in Cardiff never ride a bike for local journeys.

Despite this, over two-thirds (68%) say the city would be a better place to live and work if more people cycled, reveals *Women: reducing the gender gap*, published today by the walking and cycling charity Sustrans.

E-PACE is now available with Jaguar Land Rover's clean and efficient 200PS 2.0 litre four-cylinder turbocharged Ingenium petrol engine for the first time, priced from £33,260.

It's now even more connected and comfortable with updates for the sporty compact SUV include 'self-learning' Smart Settings technology, an Adaptive Dynamics suspension set-up.

Over one in four (27%) UK drivers have written off a car, with a fifth (21%) of these writing off a brand new car, according to an Opinium survey.

The survey commissioned by InsuretheGap.com found that 15% had written off a second-hand car that was under three years old and 38% had written off a second-hand car that was less than five years old with men only slightly worse than women having write-offs.

The Polestar 1 will make its first dynamic appearance at the 2018 Goodwood Festival of

Speed from 12-15 July.

Festivalgoers will see prototype #004 of the two-door Electric Performance Hybrid charge up the famous hill climb, set in the grounds of Goodwood House in West Sussex, England.

New breed of antenna will keep future cars clutter-free of a predicted 18 antennae.

With predictions that the modern connected car could need as many as 18 antennae to provide all relevant services, Harman announced a 5G-ready, multiband conformal antenna for cars, which combines multiple antennae in one module that can be mounted below a vehicle's body panels, allowing car makers new possibilities for vehicle design.
