Launched in 2008, facelifted in 2013 and followed by continuous upgrades, the Vauxhall Insignia range is a story of evolution and the latest

models are still as fresh and competitive in the market place as the originals, *says David Miles.*

And to add to their competitiveness there is a huge range of spec levels, a wide selection of petrol and diesel engines, transmissions and front or four wheel drive variants to choose from. Prices start from a shade under £20k for the hatchback, £21,505 for the estate and £27,165 for the Country Tourer.

Sales wise the Insignia range does well in the company car market sector and then 'used' models are popular choices with retail customers who need roomy well equipped vehicles. But overall the D-segment remains under sales pressure from the must-have SUV models and of course brand conscious users still edge towards premium brand such as Audi, BMW, Mercedes and Volvo saloons, hatchbacks, estates and also their SUV offerings.

I've just finished a week long spell living with the Insignia Sports Tourer estate with SRi VX-Line Nav specification powered by a 2.0-litre 170hp turbodiesel engine with an 8-speed

automatic gearbox. The on-the-road price is £29,545 but various options pushed the price up to £34,250 which given the comprehensive equipment is still competitive.

Standard SRi VX-Line spec includes as standard a styling pack which includes sports style front and rear bumpers and side sills, alloy wheels, multimedia Navi Pro system 8.0-inch touchscreen, DAB radio, Bluetooth, Apple CarPlay and Android Auto, dual zone air-con, multi-function computer, cruise control with speed limiter, heated flat bottomed steering wheel, sports pedals, heated door mirrors, front and rear parking sensors, front camera system, forward collision alert with emergency braking, following distance warning, lane departure control with lane assist, traffic sign recognition, remote central locking and LED daytime running lights - there is more but these are the main standard features.

From the extra cost options list Vauxhall's additions included on my test car were the must-have £850 FlexRide system if the £880 20-inch alloy wheels are chosen, enhanced driving support pack

at an expensive £1,025, a nice to have £290 head-up display, wireless phone charger at £160, a winter pack at £410, towing pack at £685 and Brilliant paint at an extra £285.

Other figures to be considered are of course performance and running costs. With 170hp and a strong 400Nm of torque from 1,750rpm the latest EU 6.2 C and D Temp compliant 2.0-litre, 4-cylinder turbodiesel engine gives this car practical 'muscle' for responsiveness during acceleration, relaxed untroubled cruising speeds and smooth and easy dawdling in stop-start traffic all made easier whatever the conditions by the 8-speed auto gearbox.

Now the engine is not the most refined turbodiesel around today, it's a bit noisy on start-up and at tickover but the sound drifts away as you get underway. What noise there is, lots of it, comes from the 20-inch wheels shod with rubberband shallow walled low profile tyres. Not only is the ride noisy the ride comfort is poor any only marginally offset by the optional cost FlexRide system which helped soften the impacts from potholes a bit.

Being a roomy estate, the boot space is 560-litres with the rear seats up and an impressive 1,665-litres max, and for good measure the braked towing weight is 1,700kg. Overall dimensions see a long wheelbase of

2,829mm so it's not only a spacious load carrier but with lots of interior passenger space with good rear seat legroom. Styling wise, especially with the sports body kit it has desirable kerb appeal.

Inside there is ample room front and rear and the quality of the upholstery and soft-touch trim coverings in the main areas is very acceptable. The layout of controls is generally good and logical but some items, such as the start button are hidden by the steering wheel. The heating temperature controls, heated screen/rear window and fan speed controls are operated outside the touchscreen but air-con and heat/ventilation distribution are selected via the touchscreen which is not user friendly.

With various driving modes to select from with the 20-inch wheels the softest suspension setting was almost mandatory but that also relaxed the big estate's handling and it tended to float through corners without any great degree of confidence or feedback to the driver.

Stay away from large optional wheels and low profile tyres and it will be a much sharper and overall more comfortable handling vehicle.

That aside it might not be in its first flush of youth but the Vauxhall Insignia in Sports Tourer form is a hugely capable estate car standing the test of time really well and at competitive prices and with a wide range of engine options.

MILESTONES

Vauxhall Insignia Sports Tourer SRi VX-Line Nav, 2.0, 170hp Turbo D £29,545 (£34,250 as

tested)

Engine/transmission: 2.0-litre, 4-cylinder BlueInjection turbodiesel EU 6.2 C&D Temp compliant, 170hp, 400Nm of torque from 1,750rpm 8-speed automatic

Performance: 137mph, 0-60mph 8.6-seconds, WLTP Combined Cycle 45.6mpg (43.2mpg overall on test)

CO2 150g/km with large wheels (147g/km with standard wheels)

VED diesel rate First Year road tax £530 then £145 Standard rate

BiK company car tax 37%

Insurance group: 21E Warranty: 3-years/60,000-miles

Dimensions/capacities: L 4,986mm, W 1,863mm, H 1,500mm, boot/load space 560 to 1,665-litres, braked towing weight 1,700kg, 5-doors/5-seats

For: An affordable very spacious alternative to the many large SUV on sale, sports styling and desirable up-market kerb appeal, very roomy, well equipped, most models are well priced, good range of engines and specifications

Against: Harsh ride with optional 20-inch wheels, some heat/ventilation controls operated via the touchscreen, some hidden controls, ungenerous warranty.
