Two new diesel engines have been added to the Mercedes-Benz A-Class range: the A 200 d Sport £28,805 and the A 220 d AMG Line £30,005.

The clean and efficient OM654q engines have been tested to new RDE-2 standards, making Mercedes-Benz among the first to offer RDE-2-compliant diesel engines in the UK and they will also feature in the new B-Class.

Volkswagen is underlining its commitment to an electrified future with the news that 30 technicians have just completed an extensive training course to become the brand's first High Voltage Experts.

In doing so, they have also become the first Volkswagen Group employees to hold the qualification in the UK and will be at the forefront of the electric revolution within the Volkswagen brand's Retailer network.

Arval is aiming to add 10 new company cars to a cutting edge hydrogen trial with the opening of a second refuelling station near its head office.

The fleet management and leasing specialist is taking part in a project called the Hydrogen Hub, which aims to show the viability of fuel cell technology across a range of domestic, commercial and transport applications in the Swindon area.
