The Prince of Wales Bridge Second Severn Crossing will be closed westbound to remove toll booths at 8pm on Friday 14 December and reopen on the following Monday.

The original Severn Bridge and M48 will be the only way across for soccer fans and Christmas shoppers over that weekend and the booths on this section will be removed with a closure from 17 - 19 December but temporary 50mph limits will be introduced.

The toll plazas will be modified during 2019 and the full 70mph limit will be introduced when safety work is completed but there are likely to be periods of disruption during the works.
