Three Cardiff garages, one in Barry and another in Haverfordwest have been voted as among the UK's best.

Motor Codes - the government-supported regulatory body for the motor industry - announces the nation's Top 50 service and repair garages after three weeks of voting by British motorists.

Motorists in the UK have nominated their Top 50 garages in the UK for car servicing and repairs. The top five garages in ten UK regions will now progress to the final voting stage of the national competition to find the UK's best workshop.

Over 4,000 motorists voted for their favourite local garage and the UK's Top 50 garages can be viewed online at www.goldengarages.co.uk.

Here members of the public can continue to vote in the final public voting stage to decide the top garage per region. The national Golden Garage winner will then be chosen by the Motor Codes panel of expert judges.

Wales top garages are:

A1 Motorcare (Cardiff); Bayside Garage (Cardiff); Gareth J Hughes (Haverfordwest); P W Millar (Barry) and White Dove (Cardiff).
