Compare the Market analysed the monthly fluctuations in the cost of motor insurance over the last seven years and found that prices are lowest at the start of the year before steadily rising and spiking in December.

The data found that the average premium for car insurance was the cheapest in February at £629, compared to £666 for the rest of the year.

Volvo Cars today revealed refreshed versions of the S90 saloon and V90 estate, including a refined exterior design and a new, state-of-the-art sound system by Bowers & Wilkins.

In a broader portfolio upgrade, the company's 48-volt mild-hybrid powertrain options are now available on every Volvo model, further boosting the company's electrified offer.

A record number of electric and autonomous vehicles are set to do battle in this year's Formula Student competition which will see thousands of engineering students from over 30 countries travelling to Silverstone in July to take part in the event.

The competition, which is organised by the Institution of Mechanical Engineers, challenges the students to use their creativity and technical skills to design, build and race single seater cars.
